

Award of Tender 2010-C1 for IREP RFANS project

PURPOSE

This report notifies bidders that responded to a tender for the supply of 24 Thermostor heat recovery tanks. These tanks are supply only and will be installed under a separate contract.

BACKGROUND

The Recreation Facility Association of Nova Scotia issued Tender IREP 2010-C1 on July 12, 2010. The Tender was posted on the RFANS website as well as on Biddingo.com for 7 days. The tenders were opened on July 19th, 2010 at 1:00 pm. Tenders were received from four bidders: CIMCO Refrigeration, Acadia Refrigeration, FixAir Inc. and DH Solutions. Two members from the IREP committee and one independent person evaluated all submissions.

DISCUSSION

The tender called for a base tender price in Canadian dollars including freight and excluding HST.

After an evaluation of all four bids, the evaluation committee concluded that the submission provided by CIMCO Refrigeration was recommended since it met tender specifications, had an acceptable delivery date and offered the lowest price.

Tender Price (excluding HST)

Winning Proponent Base Tender Price
\$57,845.44

On behalf of the Ice Rink Energy Program Committee, the Recreation Facility Association of Nova Scotia would like to thank all Proponents who responded to this tender.
