

## KEVIN PENNY

Kevin Penny suffered a spinal cord injury due to a bicycle accident in 1991 at the age of 15 years old. Through family support and perseverance, Kevin completed high school and relocated to Halifax where he attended St. Mary's University. After five years of hard work, Kevin received a Bachelor of Commerce degree. In 2002, Kevin began working for Post-Secondary Accessibility Services and is currently the Equipment Grants Coordinator. In his spare time, Kevin enjoys the outdoors, especially sailing and going to the beach. In 2019, Kevin and his partner Dee started a YouTube channel called Accessible Adventurers. To date they have created over 50 videos chronicling their life as an interabled couple. In their videos, Kevin and Dee try to break down stereotypes and provide education to others with disabilities.

## **MARK EVANS**

Mark currently works as a planning technician within Parks and Outreach, a Division of NS Department of Lands and Forestry. Prior to taking up his current position, he worked as an engineer in non-profit organizations in central and southern

Africa on a variety of water and sanitation and construction programs; Technical Officer in the Water Management Department at Cranfield University, UK and as a senior engineer for a consulting engineering company in Atlantic Canada. He has more than 35 years experience in engineering, design, construction and project management, with expertise in

park infrastructure including small water systems, wastewater systems, park buildings, roads and coastal protection.

He has undergone Rick Hansen Foundation Accessibility Assessor Training. Current projects related to improving access in NS Provincial Parks include: a new park entry building at Blomidon

Provincial Park, total redesign and remodelling of the comfort station at The Islands Provincial Park away from shared space male/female washrooms gender neutral and mobility accessible washrooms all with separate entrances.
